

# SS Series Slide Switches

## SPECIFICATION:

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| Rating                | : DC 30V, 0.3A                                      |
| Contact Resistance    | : 30m ohm max. at 1A DC                             |
| Insulation Resistance | : 100M ohm at 500V DC                               |
| Withstand Voltage     | : AC 500V for 1 minute                              |
| Switching Life        | : 10,000 Cycles (unloading/15-18 Cycles per minute) |
